## The new Building Safety Regulator

The government has asked HSE to establish a new Building Safety Regulator in the wake of the Grenfell Tower disaster and following recommendations in the 'Building a Safer Future' report by Dame Judith Hackitt.

The new regulator will oversee the safe design, construction and occupation of high-risk buildings so that residents are safe and feel safe. It will be independent and give expert advice to local regulators, landlords and building owners, the construction and building design industry, and to residents. Full details can be found [here on the HSE website](#).
